

MARTHA J. FARAH, PH.D.

Walter H. Annenberg Professor in Natural Sciences, University of Pennsylvania
 Professor of Psychology (secondary appointments in Graduate School of
 Education, Medical Ethics and Health Policy and Neurology)
 Founding Director, Center for Cognitive Neuroscience
 Founding and current Director, Center for Neuroscience & Society

INTERESTS

I am a cognitive neuroscientist who works on problems at the interface of neuroscience and society. These include the effects of childhood poverty on brain development, the expanding use of neuropsychiatric medications by healthy people for brain enhancement, novel uses of brain imaging in legal, diagnostic and educational contexts, and the many ways in which neuroscience is changing the way we think of ourselves as physical, mental and moral beings.

EDUCATION

Ph.D., Harvard University, S.B., Massachusetts Institute of Technology

AWARDS AND HONORS (selected)
